「非」比尋常
南非與肯亞考察團
South Africa & Kenya Cultural Exploration Learning Tour

崇基學院的學生考察團重視多元化體驗，就如今年七月首辦的「『非』比尋常——南非與肯亞文化探索考察團」便帶領同學走訪南非和肯亞兩個非洲國家，考察種族平等和女性權益議題，參與兒童服務，並觀賞著名的動物大遷徙。

南非種族隔離：探索與反思

南非乃非洲最繁榮的國家之一，然而繁榮背後，卻埋藏着種族隔離史，以及至今仍未消弭的不平等。是次考察團帶領同學到訪南非約翰尼斯堡，探究當地種族隔離的歷史以及當地黑人多年來承受的不公。同學們出生於後殖民時期，生活在以華人佔多數的香港，難以體會被歧視的感受，但南非黑人族群多年來卻因膚色而被剝奪應有權利。為了深入理解他們的經歷，我們除了參觀當地博物館，還與當地義工交流，聆聽他們對種族隔離的看法和體會。

其中最令人感震撼的博物館，必定是海克特•彼特森博物館。甫踏入館內，映入眼簾的是一座座墓碑，紀念那些因參與反種族隔離示威而犧牲的年輕人，其中最年輕的是只有十二歲的海克特•彼特森（Hector Pieterson）。他的遺體被另一位示威者抱起的照片，成為南非反種族隔離示威的標誌。這些震撼場景讓我們深刻意識到，南非打破種族隔離制度的背後，是前人多年來忍受身為「低等」民族的屈辱，以及不斷奮鬥和犧牲帶來的成果。在香港，我們很少遇到種族歧視的情況，但如能關注少數族裔的處境，便可理解他們日常遇到的困難和挑戰。

為深入了解種族隔離政策對黑人生活的影響，我們與當地義工交流，儘管他們多在種族隔離政策結束後出生，但生活仍然被過去的政策影響。其中一位義工分享，他的家族多年前被剝奪土地和財產，至今仍無法取回，令他和家人感到無奈和失望。我們當時身處於索維托（Soweto），是一個較貧窮的社

Chung Chi College's student learning tours always emphasise a diversified range of experiences. In the "South Africa & Kenya Cultural Exploration Learning Tour" this July, participants visited two African nations, South Africa and Kenya, studying the issues of racial equality and women's rights, participating in children's services, and viewing the renowned "Great Migration" of wildlife.

Apartheid of South Africa: Exploration and Reflection

South Africa is one of the most prosperous nations in Africa, yet behind its prosperity lie years of apartheid history and inequalities that persist today. During this tour, Chung Chi students visited Johannesburg in South Africa to learn about the history of apartheid and the injustices suffered by the locals for many years. As we were born in post-colonial Hong Kong where most of the population is Chinese, it was difficult for us to understand how racial discrimination operates. Meanwhile, Black people in South Africa were long deprived of their rights due to their skin color. To better understand the experiences of the Black population, we visited various museums and interacted with local volunteers to learn about their thoughts and experiences regarding apartheid policies.

One of the most memorable museums we visited was the Hector Pieterson Museum. Upon entering, the first scene we saw was of graves scattered throughout the area to commemorate the young people who lost their lives in a protest against apartheid policies, the youngest among them being 12-year-old Hector Pieterson. The photo of his body being carried by another protester became one of the most well-known images of the protests. Such a profound scene helped us realise that the abandonment of apartheid was the result of years of suffering by the Black community as lower-class citizens, along with their struggles and sacrifices. In Hong Kong, despite rarely experiencing racial discrimination ourselves, we could still be more considerate of the difficulties and challenges that the minorities faced.

區，居民以黑人為主，他們生活條件普遍較差。至於社區內的白人，往往衣著光鮮，駕駛豪華車輛，故我們明顯看到很多黑人仍處於貧困中，而白人仍受益隔離政策所帶來的利益和財富。南非距離實現真正種族平等，仍有漫漫長路，幸運的是，義工們仍保持希望，深信只要努力，終有一天能改變社會情況。

肯亞的婦女權益

肯亞是目前少數接受多配偶婚姻的國家之一，即男性享有一夫多妻的權利。在這個男性主導的社會中，女性時常面對各種傷害，包括家庭暴力、性暴力和強制性割禮等。我們在肯亞的行程以性別平等為主題，除了講者分享，一行人更有機會透過青年會的連繫，親自接觸社區的婦女群體與她們交流，了解青年會如何藉不同社區活動達致婦女充權（women empowerment），協助她們自力更新。

我們的兒童服務

除了在地交流，我們也在南非和肯亞進行社區服務。在南非，一行人策劃了兒童服務和活動室改造。兒童組負責為當地兒童舉辦遊戲和手工藝活動，改造組則負責翻新索維托的青年會活動室。服務當天，精力充沛的兒童甫進入禮堂便四處奔跑，我們一度擔心場面難以控制，

To understand how the lives of Black people were affected by apartheid, we interacted with local volunteers. Our conversations revealed that even though some volunteers were born after the end of apartheid, they still live with the impacts of past policies. One of them told us that his family was stripped of their land and money years ago, and it remains difficult to reclaim them, which makes him feel resigned and disappointed. In fact, the Soweto community, where we mainly stayed, is relatively poor with most residents being Black. In contrast, the White people there often wore glamorous clothing and rode luxurious vehicles. Obviously, many Black people still live in poverty, while White people have retained their wealth through the advantages of the past apartheid system. There is a long way to go for South Africa to achieve true racial equality. Luckily, volunteers still have hope and believe that their efforts may change society one day.

The Women's Rights in Kenya

Kenya is one of the few countries where polygamous marriages are legal, allowing men to have multiple wives. Living under a patriarchal society, women in Kenya are often subjected to domestic violence, sexual abuse, and forced female genital mutilation. The theme of our Kenya's visit was gender equality, and, in addition to speakers sharing, we joined the local YMCA to participate in various activities with local women's groups and to recognise how YMCA organises programs and activities that target women empowerment, enabling Kenyan women to achieve self-reliance.

Our Children Service

Other than communication, we also conducted local services in both countries. In South Africa, we were dedicated to children's service and activity room

同學們在翻新索維托的青年會活動室。

Students were renovating the activity room of the YMCA office in Soweto.

慶幸在當地義工協助下，我們很快就跟當地兒童打成一片，帶領他們參與各種互動遊戲，並教授他們使用熱縮膠片製作手工藝。活動完結後，我們向每位參與兒童送贈從香港帶來的零食。看見孩子們的熱情和真摯笑容，我們都感欣慰。

改造組則在兩天裡為活動室髹漆與佈置。儘管時間緊迫，我們仍全力以赴完成改造。雖然改造組成員較少與當地孩子互動，但看見孩童踏入活動室時展現的驚喜神情，大家也感格外滿足。助人最滿足一刻，或許就在別人最快樂的時刻。

在肯亞，我們一行人到肯亞青年會一所位於基貝拉（Kibera）貧民窟的小學進行服務。當旅遊巴駛進貧民窟時，映入眼廉的一切都令我們感慨：鐵皮屋一間緊接一間，中間好像容不下一縷陽光；鐵皮屋外是無數垃圾，環境骯髒污穢。這使巴士上的歡樂氣氛瞬間消失。在到埗前，大部份同學對貧民窟的認知僅來自網上，這次親歷其景，已成同學見識的一部分。

我們到校後迅速投入服務。一行三十一人面對超過一百五十名小朋友，過程雖然吃力，但每位同學都毫不吝嗇，有的在侷促課室內教導小朋友製作手工藝和分享香港文化；有的則在塵土飛揚的操場上與小朋友玩耍嬉戲。雖然一天

renovation. The children's service group hosted a series of games and craft teaching sessions for children, while the renovation group focused their efforts on renovating an activity room at the Soweto YMCA.

On the day of service, the children were rushing energetically, which made us fear a disturbance. Fortunately, with the help of local volunteers, they quickly became familiar with us, and we were able to play different interactive games with them. We also taught them to create handicrafts with shrink plastic sheets. After the activity session, we gave each child some snacks brought from Hong Kong, and the enthusiastic and warm smiles of the children made us pleased.

At the same time, the renovation group painted and decorated the activity room in two days. Despite the tight schedule, the renovation work was completed under our tremendous effort. The renovation group had less time to accompany the children, but all of us were delighted when we saw the astonishment from the children who stepped inside the new activity room. Maybe the fulfilled moment of helping others comes from the most joyful moments of those being helped.

In Kenya, we conducted our services at a primary school run by the Kenya YMCA, located in a slum at Kibera. When the coach drove into the slum, we were deeply moved by the scenes: metal huts were built close together with no sunlight shining between them, and garbage and dirt surrounded them. The chaotic and dismal environment halted the enjoyment on the bus. As many of us know very little about slums from internet, this experience was deeply educative.

We conducted our service when we arrived at the school. It was strenuous for the 31 of us to serve over 150

的服務未能幫助他們擺脫貧困，但仍希望孩子們能獲得一些愉快時光。

動物大遷徙的震撼

完成所有考察和服務後，我們前往肯亞「馬塞馬拉國家公園」（Maasai Mara National Reserve）觀賞舉世聞名的世界自然奇景：動物大遷徙。動物大遷徙並非是次考察團的「主菜」，但卻是同學們心中一大期待。

在觀賞動物大遷徙前，一行人首先要經歷五小時路程，由首都內羅比（Nairobi）前往馬塞馬拉。在路途上，有人憂慮兩日一夜的行程，或未能碰上運氣，無法看到大遷徙過程。幸而，七月下旬是動物大遷徙的黃金時間，團隊在兩次長達十二小時的獵遊（Safari）當中，有幸目睹數以萬計的牛羚、斑馬群由坦桑尼亞冒死跨越馬拉河遷徙至肯亞的過程，同時看到非洲五霸當中的四霸（獅子、大象、水牛和豹）。儘管我們未能將最後一霸黑犀牛收進眼底，但這或許能成為下次重臨的契機。隨着這趟「非比尋常」之旅劃上句號，想必它會成為我們大學生活最難忘的回憶之一。

children, but we all generously contributed the service session: some of us taught the children handicraft skills and shared aspects of Hong Kong culture, while others played with the children on the dusty playground. Although a single day of service cannot alleviate their poverty, we hope to bring some laughter and joyful moments to the children.

Stunning Experience of The Great Migration

After all the visits and services, we visited Kenya's Maasai Mara National Reserve to see the renowned natural spectacle: the Great Migration. This visit was not the core activity of the trip, but it was undoubtedly an anticipated event for us.

Before the safari, we had to travel to Maasai Mara from the capital city, Nairobi. During the 5-hour journey, some of us worried about the possibility of witnessing animal migration, as it sometimes depends on luck. Luckily, late July is the prime season for animal migration, and after two 12-hour safaris, we witnessed thousands of wildebeest and zebras migrating from Tanzania to Kenya, crossing the dangerous Mara River. We also met four of Africa's "Big Five" – the lion, elephant, buffalo, and leopard. Missing the black rhinoceros, the final member of the "Big Five", may provide an opportunity for us to revisit the region. As the unforgettable trip concluded, it will surely become one of the most treasured memories of our university life.

刮目相「罕」：罕見病患者補習計劃

Empowerment through Learning: Tutoring Programme of Patients with Rare Diseases

黃煜程同學、施嘉軒同學

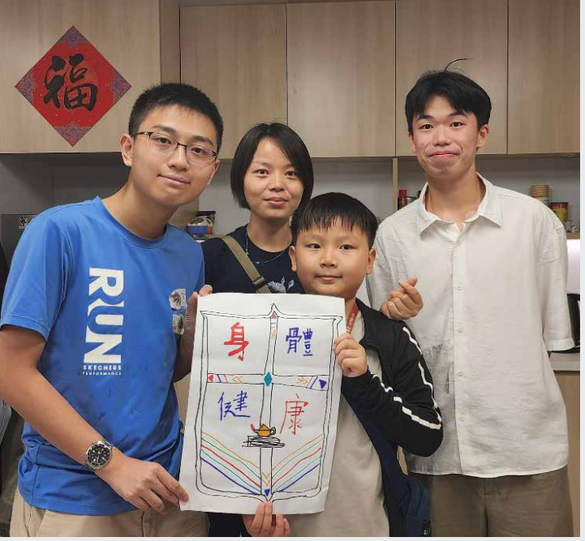
Mr. Casper Wong, Mr. Thomas Sze

黃煜程（生物/ 二）和施嘉軒（政治與行政 / 二），在暑假憑藉崇基圓夢計劃實踐「刮目相『罕』——罕見病患者補習計劃」，通過與香港罕見疾病聯盟（RDHK）、區議員和地區組織，讓罕見病患者與基層學童有互相認識和連結的機會。計劃通過安排罕見病患當網上補習導師，讓他們發揮所長，重拾自信，而學童獲得學習支援之餘，亦能理解其他群體，領略共融的意義。

［黃：黃煜程（左）| 施：施嘉軒（右）］

With the support of the "Dreaming Through Chung Chi Scheme", Casper Wong (Biology / 2) and Thomas Sze (Government and Public Administration / 2) organised their programme "Empowerment through Learning" during this past summer, linking patients with rare diseases and underprivileged children through cooperate with Rare Disease Hong Kong (RDHK), District Council member and local organisation. In this initiative, rare diseases patients can regain their confidence by serving as online tutors, while the children can receive learning support and understand the needs of other communities, realising the meaning of inclusion.

［C: Casper Wong (Left) | T: Thomas Sze (Right)］



Casper（右一）認為計劃的成果莫過於消融人際隔閡，發自內心的親近是他和 Thomas（左一）最珍視的收穫。

Casper (1st right) indicated that the most significant outcome was how interpersonal barriers broke down. This genuine closeness is his and Thomas's (1st left) most treasured reward.

問：是甚麼原因驅使你們關注罕見病患者？

黃：去年十二月的時候，我參加了由香港中華基督教青年會大學青年會舉辦的「看見 • 罕見」活動，期間我與一些罕見病患者聊天，明白他們並不想只有被動受助，也想當義工幫助他人，只是礙於患病而不容易實現。其實這些病患中不乏高學歷人士，這使我希望成立一個平台，一方面幫助罕見病患者發揮長處，另一方面亦能令更多人認識這個群體。

施：我身邊也有認識的人患上罕見病患，故我一直希望進一步了解這個群體。我和 Capser 是在一年級的 STOT 課認識的，一次飯聚中，他跟我透露了幫助罕見病患者的想法，這促成我們合作構思和推出網上補習計劃。

問：你們的計劃為何採取網上補習形式？

黃：發揮罕見病患者知識最直接的方法，莫不過向人傳授知識，因此我和 Thomas 便鎖定「補習」這個方向。至於採取網上模式，主要考慮到長期病患者多不適合經常出行，比如我們經 RDHK 招募的導師，有不能接觸陽光的、有說話緩慢的，也有需要坐輪椅的，網上補習可免卻舟車勞頓的問題，節省精力，方便他們在狀態較佳時回覆學生提問。

施：此外社會人士對罕見病或仍存有誤解，面對面互動有機會令導師承受不必要壓力。透過通訊軟件，導師以語音、文字和圖片幫助學生溫習，可以在分享和引導的過程中，給學生建立對罕見病群體的正確認識。

Q: Why did you focus on rare disease patients?

C: In last December, I participated in an event organised by the University YMCA of Hong Kong, which focused on realising patients with rare diseases. During the event, I chatted with some rare disease patients and learned that they do not just want to be passively helped, they also want to volunteer and help others, but their illnesses make it difficult to do so. As some of these patients are highly educated, which inspired me to create a platform to help them utilise their strengths while also raising awareness about this community.

T: I have people close to me who suffer from rare diseases, so I have always wanted to learn more about this group. I met Casper in a first-year STOT class, and during a casual dinner, he shared his idea of helping rare disease patients. This led us to collaborate and develop an online tutoring program.

Q: Why did you design the programme as online tutoring?

C: Some rare disease patients possess valuable knowledge but lack opportunities to apply it. The most direct way to leverage this knowledge is most likely education, thus we focus on tutoring. As for adopting an online model, the main consideration is that patients with rare diseases are often not suited for frequent travel. Among the tutors we recruited through RDHK, one cannot be exposed to sunlight, one can only speak slowly, and one uses a wheelchair. Online tutoring eliminates the hassle of travel, saves energy, and allows tutors to respond to students' questions when they are in better condition.

T: Additionally, we were concerned about the misconceptions that some people still hold about rare diseases. Face-to-face interactions might subject tutors to unnecessary pressure. By using messaging apps like WhatsApp for voice, text, and image exchanges, tutors can communicate and provide guidance more openly, so students can gradually develop a better understanding of the rare disease community.

The programme addressed the needs of underprivileged students as well. Working with Mr. Lam Wing Cheung, a member of Eastern District Council, and a local organisation Parents with Child Association, we recruited a group of primary school students from the Eastern District to provide them with free summer homework assistance and supplementary exercises, alleviating their problem of limited access to learning resources.

Q: Besides tutoring programme, were there other activities held, and what were their purposes?

C: In addition to tutoring, we organised on-site activities before commencement and at the end of the programme. In July, we held an ice-breaking event where, besides RDHK introducing their work and mentors sharing their personal experiences, participating students could use specialised tools to simulate the physical sensations and daily challenges faced by individuals with total color blindness and stiff person syndrome. We hoped students would learn the value of resilience from patients while also cultivating empathy.

T: The August activity was a Fun Day which allowed mentors and students to gather and enjoy themselves after the tutoring programme. We arranged two minigames— Newspaper Tower and Railway Restoration

另一方面，補習計劃亦能照顧基層學生的學習，幫助到更多有需要人士。我們通過東區林永祥區議員和地區組織家長童行會，招募來自東區的基層小學生，為其提供免費暑期作業輔導和課外練習，改善他們學習資源不足的情況。

問：除了補習外，計劃還包括哪些活動？活動的目的是甚麼？

黃：除了補習外，我們還在補習開始前和結束前各舉行了一項現場活動。七月舉行的是類似破冰的活動，除了由 RDHK 介紹他們的工作、以及由各位導師介紹個人經歷外，參與的學生還能通過佩戴特備工具，模擬完全色盲和肌肉僵體硬症患者所經歷的身體感受和生活不便。我們希望學生學習病患者堅毅的價值觀之餘，同時培養同理心。

施：至於八月份的活動是結業同樂日，讓導師和學生在經過補習後，能相聚一起玩樂。我們安排了報紙塔和還原鐵路兩個小遊戲，希望通過團隊活動加深學生與導師之間的團隊合作意識，此外亦設有分享環節。我們發現同樂日的活動氣氛，較破冰活動當日熱烈，學生亦願意與罕見疾患導師做朋友。

問：這項計劃給你們帶來那些深刻的經歷、體會或反思？

施：計劃讓我對罕見病群體有更深入認識，過去我的認知可能只來自我認識的人，但計劃令我對整個罕見病群體面對的誤解和困境有所了解。比如在 RDHK 的一千多名會員中，便已包含三百多種罕見疾病，平均每種病只有兩三個患者，但每種疾病的病人訴求和所需的海外藥物，是完全不相同，因而很難和向政府爭取資源。

至於構思幫助罕見病患者的方式，包括遊說合作夥伴和招募導師和學生，亦鍛練了我們的組織能力。計劃還帶來了意想不到的成效，它促成了區議員與 RDHK 的聯繫，後來雙方更舉辦探訪活動，希望能為罕見病患者帶來更多幫助。

黃：計劃的成果莫過於消融人際隔閡。在破冰活動時，學生和導師之間仍然有些距離，互動較少。但結業禮上，我們看到學生與導師聊天、玩遊戲，連家長也樂於與導師傾談。發自內心的親近，是我們最珍視的收穫。

有導師分享，他們很少有機會接觸小學生，這次經歷讓他們感到非常開心，也證明自己有能力完成挑戰，對未來更加自信。我和 Thomas 計劃繼續擔任 RDHK 義工，就罕見病患者面對的不同處境，思考如何幫助他們，增進各界對罕見病群體的認識。

通過與香港罕見疾病聯盟（RDHK）、林永祥區議員和家長童行會合作，「刮目相『罕』」計劃得以安排罕見病患當網上補習導師，為東區的基層小學生提供學習支援。

Through collaboration with RDHK, District Council member Mr. Lam Wing Cheung, and Parents with Child Association, the programme engaged rare diseases patients as online tutors, providing underprivileged students from the Eastern District with learning support.

— to foster teamwork and strengthen the bond between students and mentors through group activities. A sharing session was also included. We found that the atmosphere at the closing day was livelier than at the ice-breaking event, and students were more willing to befriend the mentors with rare diseases.

Q:What experiences, insights or reflections has the programme brought you?

T: The programme has given me a more nuanced understanding of the challenges confronting the rare disease community. For example, an alliance may be serving over 1,000 members with more than 300 distinct diseases, with an average of only two or three patients per disease, so their needs and medications can vary considerably. This shows immense difficulty in advocating for government resources.

The programme was invaluable in training our organisational and problem-solving skills. Every step was a learning opportunity, from persuading partners to navigating recruitment hurdles. Furthermore, the programme yielded unexpected results. This collaboration fostered connections between the district councillor and RDHK, leading to outreach activities that strengthened inter-organisational ties, which we believe will provide more support for rare disease patients.

C: The most significant outcome was how barriers between two groups broke down. During the initial ice-breaking event, students and tutors were noticeably distanced and they had limited interactions. At the Fun Day, however, we saw students chatting and playing games with tutors, while parents shared conversations with tutors. This genuine closeness is our most treasured reward.

Some tutors shared that they rarely had chance to interact with primary school students, and this experience made them feel incredibly happy, whilst proving their capability to overcome challenges, building their confidence for the future. Thomas and I intend to continue volunteering with RDHK, hoping to strategise how to better support the diverse circumstances that rare disease patients face, and ensure our knowledge extends beyond the scope of this project.
