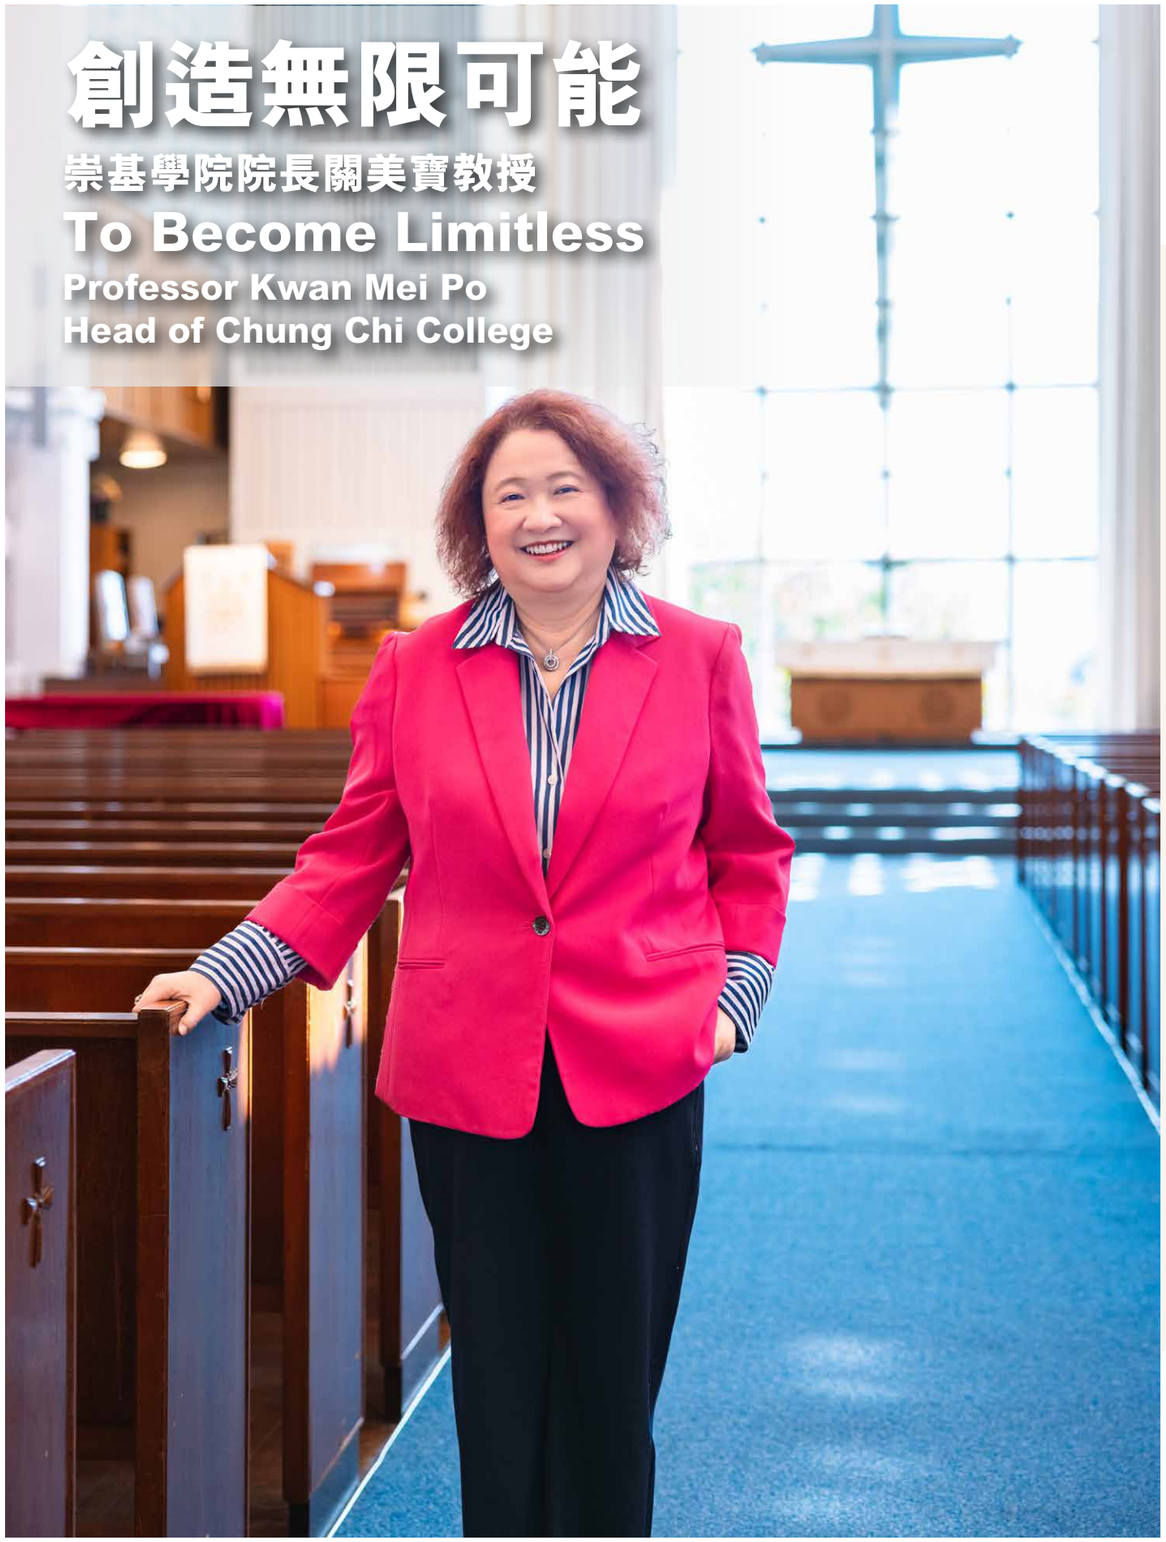
創造無限可能

崇基學院院長關美寶教授

To Become Limitless

Professor Kwan Mei Po
Head of Chung Chi College



自二〇二三年出任崇基創校首位女院長以來，關美寶院長（一九八五/ 地理）持續在不同領域屢創佳績，收獲不少「第一」。但成功是否只屬她這類聰明人的專利？關院長卻說事情並非如此，她希望以自己的工作和行事為示例，啟發大家勇敢跳出框架，認識人的無限可能。

關院長是有名的「大忙人」。每天早上三時半起床，等待她的除了研究，還包括學系、研究所和崇基的事務。旁人驚嘆她的辛勞，她卻甘之如飴，笑言自己樂在其中：「每天醒來後，想到仍有很多學術問題可供研究，很多知識尚待鑽研發掘，這種感覺對身為科學家的我而言相當振奮。」

衛星承載理想

可持續發展是關院長的關注重點，這使她的研究範疇十分廣泛，主要通過運用前沿地理信息科學和遙感方法，應對城市的健康、交通、環境及社會等重大挑戰，而衛星則是重要的研究工具。「以往大家未有留意地理與其他學科的關連，是由於缺乏精確地理數據，使科學家面臨諸多困難，所以發射衛星十分重要。」她解釋。

二〇二四年九月二十四日，「香港青年科創號」衛星在山東成功發射並進入太空軌道。這一由香港中文大學參與研發、首顆獲中華人民共和國香港特別行政區創新科技署資助的衛星，便是關院長「擔大旗」的項目。關院長指出，這顆衛星收集的數據與可持續發展相關，涵蓋水災、滑坡、綠地生態和健康風險等議題，「衛星收集的資訊能促進跨學科結合，例如綠地數量和夜光曝露會影響人的精神健康，故通過收集更精確數據，可提升公共衛生的研究成果。」她又預告今年中大將發射第二顆衛星到太空，收集更具規模的數據。

關院長下個理想是碳中和衛星，希望用以監察全球溫室氣體濃度，追蹤排放源頭並實現數據共享，推動國際監測機制。二〇二五年六月，特區政府「創新及科技支援計劃特別徵集」撥款共逾一千九百萬港元，支持由她統籌的新型碳衛星之跨學科研究。

After assuming the first female Head of Chung Chi College in 2023, Professor Kwan Mei Po (1985 / Geography) has continued to achieve remarkable successes across her research fields, earning numerous “firsts.” Is success only reserved for intelligent individuals like her? Professor Kwan says that things were not like that. She hopes to use her own experience as an example to inspire everyone to boldly step outside their comfort zones and recognise the boundless potential within humans.

Professor Kwan is famously a “busy bee”. She wakes up every day at 3:30 am and awaiting her — besides research — are tasks from her department, research institute, and Chung Chi College. While many people marvel at her hard work, she embraces it with pleasure, describing her most enjoyable moment: “Every morning when I wake up and think about those explorable academic questions and discoverable knowledge, I feel incredibly uplifted as a scientist.”

A Satellite Carrying Ideals

Sustainable development is the key research of Professor Kwan, which has led her to involve a wide range of research areas. By applying cutting-edge geographic information science and remote sensing methodologies, she is dedicating herself to addressing major urban challenges in the areas of health, transportation, environment, and society. Satellites are vital tools for research. “Due to the lack of precise geographic data in the past, people paid less attention to the relations between geography and other disciplines, which left scientists facing many difficulties. That’s why launching satellites is so important,” she explains.

On 24 September, 2024, the “Hong Kong Youth Scientific Innovation” satellite was successfully launched from Shandong Province. This is the first satellite developed by The Chinese University of Hong Kong (CUHK) and the first to receive funding from the Innovation and Technology Commission of the Hong Kong Special Administrative Region of the People’s Republic of China. Professor Kwan is the leader of this key project.

She notes that this satellite is collecting data about sustainable development, covering issues such as floods, landslides, green space ecology, and health risks. “The information gathered by the satellite can encourage interdisciplinary integration. For example, the amount of green space and exposure to artificial light at night can affect people’s mental health. By collecting more precise data, we can achieve more substantial research outcomes in public health.” She also revealed that CUHK will launch a second satellite into space this year to gather data on a larger scale.

A carbon satellite is Professor Kwan’s next major goal. She hopes to use it to monitor global greenhouse gas concentrations, track emission sources, and facilitate data sharing to initiate international monitoring mechanisms. In June 2025, the HKSAR Government’s “Innovation and Technology Support Programme Special Call” awarded a total of over HK$19 million to support the interdisciplinary research on next-generation carbon satellite that she coordinates.

屢創第一的科學家

除了衛星，關院長在其他範疇亦已發表極具開創性的研究，關注人類感知、情感和行為與地理空間的關係，將人文視野引進地理信息科學，提升其學術層次。二〇二二年，關院長便成為首位華人女學者獲頒美國地理學家協會「詹姆斯．安德森應用地理學榮譽勳章」，表揚她將地理學與社會、健康和交通等學科串連的創新思維。

關院長坦言自己總是熱衷探索新的可能，「我喜歡破舊立新，研究往往不依循學術傳統，這是十分困難的事。多年前我曾想就地理學的研究方法發表新學說，提出範式轉移級別的理論，當時卻無人賞識，在發表論文時面臨許多障礙。」時至今日，關院長的理論已被證實，並引發多個學科研究的範式轉移，所以她強調抱緊信念、堅持做事的重要性，「只要那是對的事，曙光便總會到來，甚至能夠改變世界。」

二〇二四年中大衛星發射項目的成功，進一步提高關院長的學術地位。同年，關院長獲頒中國地理學會會士銜。另外，她更獲頒兩項終身成就獎，分別是國際華人地理信息科學協會終身成就獎（二〇二四）和國際地理聯合會（IGU）地理資訊建模委員會傑出成就獎（二〇二三）。二〇二五年十一月，關院長更獲選為世界科學院院士，表彰她推動發展中國家科學進步的卓越貢獻，亦是當年獲選者中唯一的香港學者，「這使我深感榮幸，那是對我推動中國科研發展的一項認可」。關院長亦於二〇二五年十二月獲選為香港科學院院士。

A Scientist Keeps Breaking New Grounds

Beyond satellites, Professor Kwan has published highly pioneering research in other areas, focusing on the relationships between human perception, emotion, behavior, and geospatial contexts, thereby broadening geographic information science to include a humanistic perspective. In 2022, she became the first Chinese female scholar to receive the James R. Anderson Medal of Honor in Applied Geography from the American Association of Geographers, in recognition of her innovative thinking in linking geography with diverse disciplines in the social, health, and transport sciences.

Professor Kwan admits her passion for exploring new possibilities: "I like to break with convention and establish new ones, and my research often refuses to follow old academic traditions, which is extremely difficult. Many years ago, I wanted to publish a new theory on research methods in geography, which could lead to a paradigm shift. But it was unappreciated by my peers, and I faced many obstacles when trying to publish the papers." Today, her theories have been validated and have triggered paradigm shifts in different disciplines. For this experience, she stresses the importance of sticking to one's beliefs and practicing it: "As long as the thing is right, dawn will eventually come — and it may even change the world."

The successful launch of CUHK's satellite project in 2024 further elevated Professor Kwan's academic standing. In the same year, She was recognised as a Fellow of the Geographical Society of China.In addition, Professor Kwan also received two lifetime achievement awards: one is the Lifetime Achievement Award from the International Association of Chinese Professionals in Geographic Information Sciences (2024), and the other is the Outstanding Achievement Award in Modeling Geographical Systems from the Modeling Geographical Systems Commission (MGSC) of the International Geographical Union (IGU) (2023). In November 2025, she was elected a Fellow of The World Academy of Sciences (the only Fellow from Hong Kong elected in that year), in recognition of her outstanding academic achievements and her contributions to promoting science in the developing world. "I am truly honored. That is a recognition of my contributions to the advancement of scientific research in China," she said. Further, Professor Kwan was elected a Fellow of the Hong Kong Academy of Sciences in December 2025.

華人女學者的奮鬥

關院長以首位華人、以至華人女性的身份獲得不少學術榮譽，她坦言成為學術領袖從來不易，「當年我的身份，加上不遵循傳統的學術角度，使我需要比別人多付出數倍努力來證明自己。這樣做並非僅為紀錄或獎項，而是希望改變他人對女性科學家的偏見。」

幸而學術領域始終是研究見真章，她的努力亦得回報，包括入選二〇二三年全球學者學術影響力排名，位居中國地理學第一；而在二〇二四及二〇二五年，關院長連續兩年於史丹福大學編製之「全球前2%頂尖科學家」中位列地理學領域全球第五。

二〇二五年十二月，關院長獲全球創新企業學會選為「全球傑出華人領袖」，並應學會邀請在頒獎典禮上分享心得。

Professor Kwan was selected by the Global Innovation Enterprise Society as a "Global Outstanding Chinese Leader" in December 2025, and was invited to speak at the presentation ceremony to share her experience and insights.

An Indefatigable Chinese Female Scholar

Professor Kwan has earned many academic honors as the first Chinese person or the first Chinese woman. For her, becoming an academic leader has never been easy: "Back then, my identity, together with my unconventional academic perspective, meant I had to put in several times more effort than others to prove my ability. This was not just for records or awards, but to change people's biases against female scientists."

Academia ultimately values research achievements, and her efforts have been richly rewarded. These include being listed in the 2023 Global Scholars Academic Impact Ranking and ranked first in China in the field of Geography. She is also listed by Stanford University among the world's top 2% scientists for both 2024 and 2025 and has consecutively ranked fifth globally in the Geography field.

"I have noticed that after I started receiving academic awards, more Chinese female scholars have also begun

二〇二五年九月，關院長獲香港（國際）航天科技慈善基金會委任為資深航天科技顧問。圖為她在晚宴上接受中大校長盧煜明教授（左一）、基金會創辦人兼行政董事會主席葉鉅雲先生（左三），及基金會聯合人創辦人陳曉鋒律師（左四）等友好的祝賀。

Professor Kwan has been appointed as a Senior Space Technology Advisor by the Hong Kong (International) Aerospace Charitable Foundation Limited (HKIACF) since September 2025. She was congratulated by Professor Dennis Lo Yuk Ming, Vice-Chancellor / President of CUHK (1st left), Mr. Henry Yip, Founder and Chairman of the Executive Board of HKIACF (3rd left), and Mr. Nick Chan, co-founder of HKIACF (4th left), and other friends at a dinner.

「我發現，當我在學術界獲獎後，獲獎的華人女性數目亦開始增加，這表明人們開始認可華人女性能夠領導學術。」華人女學者地位的提升，也可說是關院長參與引發的另類範式轉移，而她的模範表現，更使其在二〇二五年底獲全球創新企業學會選為「全球傑出華人領袖」。關院長一次又一次證明個人努力所能創造的可能性。

為崇基同學作楷模

作為學者，關院長亦將可持續發展元素帶入崇基。她就任院長後積極推動環境及可持續發展委員會的工作，二〇二四年四月學院舉行為期一年的「碳中和在崇基」計劃，設立碳中和花園和舉行減碳活動，便是關院長的構思，「我希望讓崇基變成一個更加環保、更具可持續性的校園，增進同學保護地球環境的視野。」

雖然關院長不斷屢創新猷，但她強調，無論是做研究抑或做院長，她的心態都是希望向同學身教，表達「凡事皆可能」的道理，「成功的關鍵並非背景、性別和年齡，而在於願意付出多少努力。」她又寄語崇基同學應勇敢認識自己與世界，探索夢想，成為新一代崇基人，為自己和崇基實現更多可能。

winning awards of their own. That means people are starting to recognise that we Chinese women can excel in academia." The elevation of Chinese female scholars' status can be seen as another kind of paradigm shift in which Professor Kwan participated. As a female role model, Professor Kwan was even selected by the Global Innovation Enterprise Society as a "Global Outstanding Chinese Leader" at the end of 2025. Time after time, she has proven what individual effort can achieve.

A Role Model for Chung Chi Students

As a scholar, Professor Kwan has also brought elements of sustainable development into Chung Chi College. After assuming the post of College Head, she has been promoting the work of the Environment and Sustainable Development Committee. In April 2024, the College launched the year-long "Carbon Neutral at Chung Chi" initiative, including the installation of a Carbon Neutral Garden and a series of carbon reduction activities, all of which were conceived by Professor Kwan. "I hope to make Chung Chi a more environmentally friendly and sustainable campus, broadening students' perspectives on protecting the environment on Earth."

Although Professor Kwan continues to break new ground, she emphasises that, whether doing research or serving as College Head, she is always putting herself forward as a role model for the students, conveying the message that "everything is possible." "The key to success lies not in background, gender, or age, but in how much effort one is willing to put in." She also gives advice to Chung Chi students: be brave in exploring yourself and the world, pursue your dreams, and become the new generation of Chung Chi-ers to ultimately achieve greater possibilities for yourselves and for Chung Chi.

商科學子發展公共使命
A Business Student and Her Public Vocation

梁縈牽同學
Ms. Eunice Leung

入讀環球商業學，接連取得聯招入學新生獎學金、尤德爵士紀念獎學金及校長卓越獎學金，說梁縈牽 Eunice 是優異生並不為過，但今年二年級的她並沒有自滿。從入學起便抱學習心態，參與各項實習和學生團體，推動她把時間表排得密麻麻的，是矢志貢獻社會的心。

問：你為何選擇攻讀環球商業學，它有何吸引之處？

答：雖然中大環球商業學課程錄取人數較少，但同學亦因此而有更強的人際連結。選科前，我已得悉課程內同學相處有如「戰友」，新生在學業以至職涯規劃等事宜上，較易獲得學長的引導，這種互相幫助的氛圍是我十分喜歡的。

A sophomore in Global Business Studies, who was awarded the Admission Scholarship, the Sir Edward Youde Memorial Medal, and the Vice-Chancellor's Scholarships for Excellence, Ms. Eunice Leung did not become complacent despite being seen as an outstanding student. She has been eager to learn since she started her university life, participating in various internships and student programmes, and behind her fully occupied schedule is her determination to contribute to society.

Q: Why did you choose to enroll in Global Business Studies (GBS) programme? Are there any attractive aspects?

A: The Global Business Studies programme of CUHK only admits a few freshmen, but that fosters a strong

Eunice 獲中大校長卓越獎學金，嘉許其學術及非學術領域的卓越表現。

Eunice received Vice-Chancellor's Scholarships for Excellence in recognition of her remarkable academic and non-academic achievements.

另外，課程為同學提供兩次海外交換機會，地區分別在北美洲和歐洲，這對我而言是很珍貴的學習機會。今年夏天，我將前赴加拿大多倫多大學當交換生，同時十分期待四年級時到歐洲著名大學作另一次海外交流。

問：能否介紹你在武漢實習的經歷，並分享你的得着？

答：我在一年級的暑假到中華人民共和國香港特別行政區駐武漢經貿辦事處作五星期實習。我所在的部門負責對接港資，協助它們在武漢以至華中一帶尋找商機，而我的工作以研究為主，涵蓋當地產業結構、居民消費習慣等，並在實習最後一周提交報告，就山西的優勢行業和具合作潛力的企業為辦事處主任提供建議。

當時我的報告以兩間山西新能源龍頭企業為主，從中我亦了解到國內綠色金融的發展，以及內地與香港在這方面的差異。除了研究經驗，我亦在實習中認識到政府部門運作實況、跨部門協作的方式。

我在武漢的生活同樣多姿多采，印象最深的是內地成熟的網購系統，餐飲外賣和網約車都既實惠又快捷，節省不少時間。

問：CCN（劍橋諮詢聯盟）是怎樣的學生團體？能否介紹你在當中的參與？

答：劍橋諮詢聯盟是一個由學生營運的國際網絡，目的是給學生機會，為真實企業提供企業諮詢服務。在香港分部，CCN成員連同擔任顧問的學長，大約在六十人左右。我在一年級加入CCN，協助一家企業就推出「剩食盲盒」作策略研究，包括了解不同亞洲城市居民在食品方面的網上消費習慣、居民的環境意識，以至區內潛在競爭者等，為企業推出產品提供參考。

現時我則擔任CCN副主席，除了企業諮詢項目外，我和其他核心成員還需要參與同學面試，協助網絡吸納新成員。CCN的特別之處，乃並非僅以成績作唯一錄取標準，還會考慮同學的個性和潛力。

問：你對公共事務的興趣何來，為何希望在這方面發展？

答：我自小有閱讀新聞的習慣，過去一年亦有不同機會聆聽任職公共界別的學長分享職業生涯點滴。去年，我有幸參與由青年議會舉辦的「iYouth公共事務領袖培訓計劃」，二年級時更成為籌委之一，主要工作是協助舉辦公共政策講座，邀請公共界別的代表，例如官員、立法會議員和非政府組織代表擔任講者，目的是協助青年人從政策制訂者的角度思考公共議題。

另外，去年我亦有幸隨青年議會其他代表一同到訪特首政策組交流學習，並向小組提交「青年議會二〇二五施政報告建議書」，是一個實踐所學的好機會。

我未來希望加入政府，協助制訂政策貢獻社會。我認為無論主修哪個學系，都可以為政治和公共事業出力，正如我就讀的環球商業學，學長畢業後的出路並非只有銀行和金融業，職涯規劃已愈趨多元化。

bond that is built among the students. Before choosing my major, I realised that students in the programme are willing to help each other like "comrades", and that especially freshmen can easily be supported by seniors with academic or even career planning advice. The atmosphere of reciprocity is what I value most.

Another attractive aspect is the two overseas exchanges provided by the GBS programme, which are in North America and Europe. This serves as a valuable opportunity for my studies. I will stay at the University of Toronto, Canada, as an exchange student, and I look forward to the second exchange experience in Europe in my final year.

Q: Can you introduce your internship experience in Wuhan and share your learning outcomes?

A: During the summer of my first year, I was an intern working at the Hong Kong Economic and Trade Office in Wuhan, under the HKSAR Government of the People's Republic of China for five weeks. The division in which I worked is responsible for communicating with Hong Kong enterprises, assisting them in seeking business opportunities in the Wuhan and Huazhong (Central China) region, and my main duty was researching the economic background, such as local industrial structures and the spending habits of residents. I also submitted a report to the Office Director during my last week of the internship, introducing an advantageous industry in Shanxi province and proposing potential enterprises for future cooperation.

My report was about two giant companies in the green energy sector. The research process developed my insights into China's green economy, as well as the differences between Chinese Mainland and Hong Kong in this area. Besides economic research, I also gained a deeper understanding of the actual operation of government departments and cross-divisional cooperation.

My life in Wuhan was also fruitful. I was impressed by the maturity of the online shopping system in the Chinese Mainland, which offers affordable and convenient meal delivery services as well as ride-hailing, saving a lot of time.

Q: What is the student group Cambridge Consultant Network (CCN)? Can you explain your participation in it?

A: The Cambridge Consultant Network is an international consulting network run by students, aiming to provide real-world experience for its members to serve enterprises as business consultants. There are about 60 members in the Hong Kong branch, including the seniors who serve as advisors.

I joined CCN-HK when I was a freshman and served as a Student Consultant, providing services for a company that wanted to launch "Food Rescue Boxes". To provide information for their decision, I researched the online food consumption habits and environmental awareness of residents in different Asian cities, and identified potential competitors in the region.

Now I am the Vice President of CCN-HK. Besides implementing consultation projects, I need to interview students with other core members to recruit new members for CCN-HK. We not only consider interviewees' GPA but also their personalities and potential. This is what makes CCN special among other student organisations.

Q: How did you build your passion for public affairs and why did you choose to develop your career in this sector?

A: I have been reading news since I was young, and I had various opportunities to listen to mentors' sharings on career planning in the previous year. I joined the "iYouth Public Affairs Leadership Programme" (iYouth) last year and am now an Executive Committee member.

My main task is to organise seminars on public administration, inviting representatives from different public sectors, such as government officials, members of the Legislative Council, and staff of non-governmental organisations. These seminars aim to provide perspectives to help youngsters reflect on public issues.

As one of the representatives of the Youth Council, I visited the Chief Executive's Policy Unit of the HKSAR Government last year. We submitted the "Youth Council's 2025 Policy Address Recommendation", which was a perfect chance to apply what I learned.

I am considering joining the government in the future, contributing to society by assisting in making public policies. I think that students can dedicate themselves to politics and public affairs regardless of their majors. In the GBS programme that I am studying, the career paths for our seniors have become increasingly diverse - our alumni do not just work in banking or financial sectors.

築夢未圓

崇山維高，大海維深。巍巍上庠，青青子衿。明德弗違，永矣福音。
言樹嘉木，維桃與李。春光爛兮，桃李穠矣。回首廿年，樂之無已。
崇山為基，至善爰止。大海之容，會通萬里。祝以百年，人文蔚起。

A Dream in Constant Pursuit

I gazed at the hill and sea surrounding me, where talented students crowd together. Goodness advocates cultivation, guiding the propagation of good news.
I praised the sweet blossoms diffusing around, where the vigorous students are perfumed. Two decades of rich stories, filling the memories with happiness.
The lofty hill holds perfect peace, while the silent sea approaches the world in ease. I wish my college prosperity, extending forever throughout humanity.

利漢楨教授線上藝術紀念展　支持「容拱興博士紀念獎學金」

Professor Hon-ching LEE Memorial Online Art Exhibition Supporting the “Dr. YUNG Kung Hing Memorial Scholarship”

利漢楨教授是享譽國際的版畫和雕刻藝術家，亦為香港中文大學榮譽院士及崇基學院藝術顧問。他於一九六七年獲俄勒岡大學藝術（雕塑）碩士學位，並於美國從事藝術工作多年，包括於俄勒岡大學及洛克福學院等校任藝術教授，又曾出任奇樂藝術中心主任。

二〇〇五年，利教授於中大設立「洽蕙藝文計劃」，積極推動校園藝術發展，支持崇基學院舉辦多個中外藝術展覽、講座和工作坊，提升師生藝術素養。利教授亦多次舉辦籌款展覽，推動學院藝術發展。

二十年來，利教授與一眾關心教育的中大老師結下深厚情誼，其中包括已故學院資深導師容拱興博士。去年三月，他特別舉辦展覽，為紀念摯友的「容拱興博士紀念獎學金」籌款。

二〇二五年九月，利漢楨教授與世長辭。為紀念他促進學生藝術發展的貢獻，以及他對中大摯友的深厚情誼，利教授家人慷慨捐出其四十八幅畫作及六十六件石雕予崇基學院作籌款用途，所得捐款將全數撥入「容拱興博士紀念獎學金」。為表謝意，凡捐款滿港幣五千元或以上，捐贈人將獲贈利漢楨教授作品乙件。

我們誠邀您支持「容拱興博士紀念獎學金」，鼓勵優秀學生，延續利教授和容博士的教育熱忱及對學生的關懷。如有查詢，請聯絡拓展及校友事務處張小姐（電郵：doracheung@cuhk.edu.hk；電話：3943 6498）。

Professor Hon-ching Lee, a world-renowned US-based artist specialising in sculpture and printmaking, was Honorary Fellow of The Chinese University of Hong Kong and Art Advisor of Chung Chi College. He received the Master of Fine Arts (sculpture) with honours from the University of Oregon in 1967, and had been working in the art field for years, including teaching art at University of Oregon and Rockford College, serving as the Director of the Clark Arts Center Gallery, etc.

In 2005, he established the Hop Wai Art and Cultural Programme, which greatly enriched the artistic atmosphere at Chung Chi College and CUHK. With his support, the College organised numerous arts and cultural activities, including exhibitions, lectures and workshops. Professor Lee also played a pivotal role in advancing the College’s art development by spearheading fund-raising exhibitions.

Over the two decades, Professor Lee built deep bonds with many dedicated educators at CUHK, one of them was late Dr. Yung Kung Hing, Senior College Tutor of Chung Chi College. In 2024, in memory of Dr. Yung, Professor Lee generously donated his exhibits to support the establishment of “Dr. Yung Kung Hing Memorial Scholarship”.

Professor Lee passed away in September 2025. To honour his contributions to student art development and his deep friendship with the CUHK community, his family generously donated 48 paintings and 66 stone sculptures by Professor Lee to Chung Chi College to raise fund for “Dr. Yung Kung Hing Memorial Scholarship”. As a token of gratitude, any donations of HK$5,000 or above will be acknowledged with a gift of Professor Lee’s artwork.

We sincerely invite you to support “Dr. Yung Kung Hing Memorial Scholarship”, which will help outstanding students pursue academic excellence and perpetuate the passion for education and student care demonstrated by Professor Lee and Dr. Yung. For enquiries, please contact Ms. Dora Cheung at the Development and Alumni Office (Email: doracheung@cuhk.edu.hk; Tel: 3943 6498).

崇基校董會主席巡禮 (XI) 李國星主席

李國星主席系出名門，祖父為東亞銀行共同創辦人李子方先生，父親為前行政、立法兩局議員李福和博士。李氏於美國深造，先後於布朗大學及哥倫比亞大學取得土木工程學理學士及工商管理碩士，及後從事金融業逾四十年，曾任英國華寶投資銀行亞太區副主席、英國洛希爾投資銀行中港區董事總經理等職。李氏創立偉業金融集團及星安家族辦公室，現任偉業金融集團顧問委員會主席及星安家族辦公室主席，並擔任東亞銀行、九龍建業及博富臨置業等多家上市公司董事。

李主席通過其投資專業貢獻社會，曾任香港聯合交易所理事會成員，並獲政府委任為警察子弟教育信託基金、警察教育及福利信託基金、懲教署人員子女教育信託基金之投資諮詢委員會委員，禁毒基金會管理委員會及禁毒基金投資小組委員會委員，以及戴麟趾爵士康樂基金投資諮詢委員會主席。他在二〇〇四至二三年間出任香港中文大學校董，兼任校董會轄下財務委員會委員，現任中大投資小組委員會委員。李氏亦曾任英國慈善機構貝利馬丁基金會顧問，現時則擔任漢學發展慈善基金會董事。

二〇一八年，李福和博士家族慷慨捐款支持崇基學生發展綜合大樓項目。李主席 (左一) 與家族成員、時任崇基學院院長方永平教授 (右一) 及鄺榮昌校董 (右二) 一同出席支票捐贈儀式。

In 2018, the Dr. Li Fook Wo Family generously donated to support the Chung Chi Student Development Complex project. Chairman Li (1st left) and family members attended the cheque donation ceremony alongside then College Head, Prof. Fong Wing Ping (1st right), and Mr. Kwong Wing Cheong (2nd right).

李主席父祖俱曾服務崇基校董會，他亦克紹箕裘，自一九九一年起出任學院校董至今。二〇〇二至一五年，他擔任校董會司庫，二〇一五到二一年接任校董會主席，致力於學院長遠發展，包括落實興建崇基學生發展綜合大樓，李主席與其賢姊四人更慷慨捐建大樓內之劇院，並以其尊翁尊堂命名為「李福和朱美琳劇院」，特表孝思。中大於二〇二二年向李氏頒授榮譽院士銜，表彰他對大學及社會之貢獻。

Chung Chi College Board Chair (XI) Mr. Li Kwok Sing Aubrey

Mr. Li Kwok Sing Aubrey comes from a distinguished family. His grandfather, Mr. Li Tse Fong, was a co-founder of the Bank of East Asia, and his father, Dr. Li Fook Wo, served as a member of both the Executive Council and the Legislative Council. Mr. Li received his higher education in the United States, earning a Bachelor of Science degree in Civil Engineering from Brown University, followed by a Master of Business Administration from Columbia University.

After graduation, Mr. Li embarked on his career in the finance industry, spanning over forty years. He served as Vice-Chairman of the Asia Pacific Region at S.G. Warburg & Co. and as Managing Director of N.M. Rothschild & Sons in Greater China and Hong Kong. Later, he founded MCL Financial Group and IAM Family Office. He currently serves as Chairman of the Advisory Board of MCL Financial Group and Chairman of IAM Family Office. Additionally, he is a director on the boards of several listed companies, including the Bank of East Asia Limited, Kowloon Development Company Limited, and Pokfulam Development Company Limited.

Mr. Li has contributed his professional expertise to public service. He was a member of the Council of the Stock Exchange of Hong Kong and was appointed by the Government to serve on the Investment Advisory Board of the Police Children's Education Trust Fund, the Police Education and Welfare Trust Fund, and the Correctional Services Children's Education Trust Fund. He also served on the Governing Committee and Investment Sub-committee of the Beat Drugs Fund and as Chairman of the Sir David Trench Fund for Recreation Investment Advisory Committee.

From 2004 to 2023, he served as a Council Member of The Chinese University of Hong Kong (CUHK), during which he was also a member of the Finance Committee. He is currently a member of CUHK's Investment Sub-committee. In addition, Mr. Li was an adviser to Barry & Martin's Trust, a British charity organisation, and is now a director of the Sinological Development Charitable Foundation.

Mr. Li's grandfather and father both served on the College Board. To follow in their footsteps, he joined the Board of Trustees in 1991. From 2002 to 2015, he served as Treasurer of the Board, and as Chairman of the Board from 2015 to 2021. During his tenure as Chairman, he focused on long-term development for the College and oversaw the completion of the Chung Chi Student Development Complex. In honor of his parents, Mr. Li and his four sisters generously donated the "Fook Wo and Laura Jee Li Theatre" within the complex. In recognition of his significant contributions to the University and society, CUHK conferred on Mr. Li an Honorary Fellowship in 2022.
