無線網絡設施改善工程 Internet Service Improvement Works

自2022/23學年開始，學生宿舍宿生房間的寬頻網絡服務將改由供應商提供，故學生宿舍已趁暑假完成進行必需的設備更換及相關測試工程。

工程完成後，宿生可選擇直接接駁新置寬頻網絡插座或自備無線路由器（WiFi router）使用學生房間內的無線上網服務。至於公眾地方如大廳、備餐間等的無線網路服務將維持由ITSC提供。特此通知，敬希垂注。

Starting in 2022/23, the broadband service at all student rooms in hostels would be provided by service provider, thus equipment replacement works have been arranged in different hostels this summer.

After the completion of such replacement works, **students could choose to plug in for internet service or prepare their own WiFi router to use the wireless internet in the room.** The network service at common areas, such as lobby and pantry at the hostel, would still be covered by ITSC. Thanks for your attention!
