THE CHINESE UNIVERSITY OF HONG KONG

NOTICE from Student Hostels Committee

Waterproof (flood) tests on student hostels rooftop

The University will conduct waterproof (flood) tests on the rooftops of student hostel to check the waterproofing conditions of the rooftops. During the waterproof (flood) tests, students are not allowed to enter the rooftop area including the facilities on the rooftop, such as the laundry room and clothes drying area.

After the waterproof (flood) test, contractors will enter the floor below the rooftop to conduct inspections and will also enter student rooms to check for water leakage if needed. Students are advised to check the condition of their rooms during the waterproof (flood) test and report any leakage to the janitors as soon as possible.

The schedule of the waterproof (flood) test is listed as follows:
